Story arc

After [Bo](#)'s reunion with her [Succubus](#) birth mother, [Aife](#), and following the clash between them, she faces personal challenges with [Dyson](#) when she finds out that he had lied to her about knowing who her birth mother was and that he had been [Trick](#)'s undercover agent, as well as his lost feelings of passion for her – and with [Lauren](#) when their relationship becomes complicated after [The Morrigan](#) informs Bo that Lauren had a girlfriend. At the same time that she is coping with these emotional turmoils, a villainous and evil ancient enemy of the [Fae](#), [The Garuda](#), is awakened and resurfaces with the intent to destroy the peace truce between the [Light Fae](#) and [Dark Fae](#) clans, and reignite [The Great War](#) between them. The new [Ash](#), [Lachlan](#), recruits Bo to be his champion in the final battle against The Garuda and she agrees on the condition that he regard her as a partner, not as his servant. Bo finds out that she is not only Trick's maternal granddaughter, but that she has inherited some of his [Blood Sage](#) powers. Bo must quickly learn how to handle herself so that she may protect those who have protected her, and form a united team in the fight to stop a powerful enemy bent on destroying everyone and everything in its path.
